H-1/SS-1 COINCO RETROFIT Kit #100-0060

1. Turn off power to the machine at the source.
2. Remove validator, controller, stacker, stacker brackets, power box and harness from the machine.
Be sure to then plug in the stacker bypass plug.
3. Remove ball studs, lexan panel and validator face plate.
4. Align template with the four face plate mounting holes on the face of the machine.(A)
5. Mark and drill the seven holes through the face of the cabinet, using the specified bit size.
6. Mark and cut validator opening in the cabinet.
7. Attach new lexan panel with ball studs and nylon nuts, also attach the out of service light with the speed nut.(B)
8. Mount the face plate and the validator bracket, through the lexan and cabinet face.(C)
9. Attach the power pack holder and the power pack mounting using the 2 #10 nylon lock nuts provided.(D)
10. Attach the validator to the validator bracket using #8-32 x 5/8 screws.(D)
11. Confirm C2000 controller eprom is v2.0 or later; if not replace with enclosed eprom. Replace components in machine.
12. Add the Coinco harness adaptor to the validator and the machine harness.
13. Attach the wanted dollar decal to the front of the face plate.
14. Turn on the power to the machine.
